

The Australian High Commission and the National Committee for UNIFEM Singapore, in partnership with ANZA, INSEAD and Financial Women's Association, present

## Women Mean Business

A corporate luncheon celebrating International Women's Day 2007

The Regent Singapore, 1 Cuscaden Road | 12.00-2pm, Thursday 8 March 2007

**With special guest speaker Dr Susan Lim**  
*Visionary Singaporean surgeon and medical researcher, acclaimed alumna of Australia's Monash University and successful businesswoman*

Dr Susan Lim is one of Australia's most prominent university graduates – and one of Singapore's most loved citizens.

A pioneer and leader in her field, Dr Lim performed Asia's first successful liver transplant in 1990, and has since introduced a minimally invasive breast surgery and, most recently, robotic general surgery in Singapore.

In 2000 she was named 'Spirit of the Century' in a public nationwide contest to identify Singapore's role model for the 21st century. Her hands are immortalised at Singapore's Madame Tussaud's Exhibition.

A successful businesswoman, Dr Lim is founder and manager of Susan Lim Surgery and several other leading research and surgery centres in Singapore.

She is also a volunteer SAF Captain and is actively involved in community work, having jointly established, with her husband, Indiapore Trust, which supports e-learning and information technology education for children.
